

Welcome to your Guru Teach Journey! Guru Teach is an effective tool that will help your patients understand their dental needs, the needed treatment, and really importantly the consequences of neglecting their oral health. Just like any tool it only works if you use it. This map will help you become a Guru Teach, Guru! It is simple:

- 1) Save this document to your computer
- 2) Follow the map and click on the hyperlinked titles to watch the Guru Teach video tutorial (if the hyperlink doesn't work copy/paste the provided link into a web browser).
- 3) After watching the tutorial try out what you have learned in the Guru Teach software
- 4) Once you feel like you have gotten the hang of it, try it chairside with a patient or practice with a friend.
- 5) Check off each stage as you complete it (make sure to save the document so your progress will be saved)
